

**Frank Jr. sets the pilot house atop the ARCTURUS.**

## ***Who'll stop the rain?***

August 20, 2013

**Patti Marine maintains its aggressive schedule on Signet Maritime's 6,000 horse "Z" drive tugs, despite the wettest two months on record. Last Friday the pilot house was set on hull 173 (SIGNET ARCTURUS), which completed the superstructure and a significant milestone. Last night, hull x-rays were shot on 173 and all were clean, which keeps our perfect record at Patti Marine intact!**

**Silencer installation in exhaust stacks.**

**Aluminum mast in main shop for outfitting.**

**The 120' crane barge for the US Army Corps of Engineers is on schedule for the crane delivery in 6-7 weeks.**

**Fuel manifold tested and ready for fuel.**

**Caterpillar engines prepped for start-ups.**

**Frank Patti III and Joey Haveard prefab pipe for forward accommodations.**

**Mark and Huu on the aft deck completing the main winch foundation.**

**Stern view of 174 (POLARIS).**
