

We highly value our working relationship with **TMT Vessels**, even so much as to illustrate the **SEAWATCHER I** on the new company sign! The new sign also commemorates 40 years of **"Patti Built"** vessel construction! We have been very blessed over the years with landmark vessels, significant awards, and exceptional owners and customers! We are thankful for our meager beginnings and our determination to adhere to the principals of quality and excellence. Our founder, Frank Patti Sr. forged the term **"Patti Built"** to be affixed on every vessel constructed as a trademark of pride and devotion to our workmanship. Our most prized possession is the **"Patti Built"** crew. Through the many milestones within 40 years, it is our respect for each other, our workplace, and our products that make the term **"Patti Built"** a valued trademark.

Most of all, it is our faith in God that guides and protects us. It is through Him that we have achieved all our accomplishments. May we continue to praise Him in all endeavors, until we then attain our ultimate goal.

*Frank Patti Jr.*

## LAUNCH OF THE SEA WATCHER II

PATTI PRESS

APRIL 8, 2017

**Patti Marine Enterprises** welcomes you to the Blessing and Launch of the 152' **SEA WATCHER II**. This clam vessel is our fourth project with **TMT Vessels**; Barney Truex, Jim Meyers, and Martin Truex Sr. The **SEA WATCHER II** is an expanded version of the last **"Patti Built"** clam vessel, **SEA WATCHER I**. This historic clammer is the very first full class designation American Bureau of Shipping (ABS) Maltese Cross A1 fishing vessel ever built! **TMT Vessels** is based out of Atlantic City, NJ with a good number of their smaller clammers operating there due to the channel's draft restrictions. The deeper draft, **SEA WATCHER II** will operate out of New Bedford, MA port alongside her sister ship, **SEA WATCHER I**.

Length 152'  
 Beam (width) 36'  
 Depth (midship) 15'  
 Draft (keel) 12' 4"

- Single Screw (propeller) for vessel-efficient fuel economy
- Propulsion provided by (1) Caterpillar 35-12 cylinder main engine rated at 1810 horsepower
- Bronze 4 blade propeller and 82" Kort Nozzle with a 7" diameter stainless steel shaft
- Hydraulic bow thruster with counter rotation 4 blade stainless steel propellers
- (2) Cummins QSB-7DM Generators, 150 kilowatt each
- Cummins QSK-38M 1000 horsepower clam pump engine driving a 14" pump providing sea water to the dredge manifold. This pump jets water to the ocean floor to force sea clams off the bottom into the dredge (sled).
- Product capacity- 192 cages of live clams- sorted and processed in Sea Watch home facility

**Sea Watch International** and **Joe Patti's Seafood** together have marketed their clam chowder package especially for Pensacola! Two family companies working together to provide a most unique; family built, family harvested, and family sold Sea Watch/Patti Product!

### JOE PATTI'S & SEA WATCH CLAM CHOWDER

Make your own gourmet clam chowder with this Joe Patti brand chowder kit. Included are two cans of condensed clam chowder and one can of chopped sea clams

**Patti Marine** gained a personal interest bonus becoming acquainted with the **TMT Vessel's** owners and crew, and it's just not with seafood....

Martin Truex Sr.'s son, Martin Truex Jr. is the premier NASCAR Cup Racer! In the first 6 races so far this season, Martin Jr. has more playoff points than any other driver. He won big in Las Vegas, along with two top 5's and three top 10's finishes. Martin Truex Jr. will seek his 5<sup>th</sup> straight top

10 performance at Texas Motor Speedway this Sunday.

All of us at **Patti Marine** wish Martin Jr. continued success and another shot at the ultimate NASCAR Champion Title!
