

Aft Hull Installed March 22nd

Pilot House Installed March 30th

PATTI Marine is very grateful to Frank O'Hara, Alfred Osgood, Paul York and all of the STARLIGHT Team for the opportunity to accomplish this conversion.

We are also grateful for our PATTIBUILT Team. With their efforts, hard work, and determination, we have met all of our milestones to present. The toughest milestone is completion.

It is our faith in each other and our capabilities to get the job done. Most of all, it is our faith in God. It is through his name, that all things are possible.

LAUNCH OF THE STARLIGHT

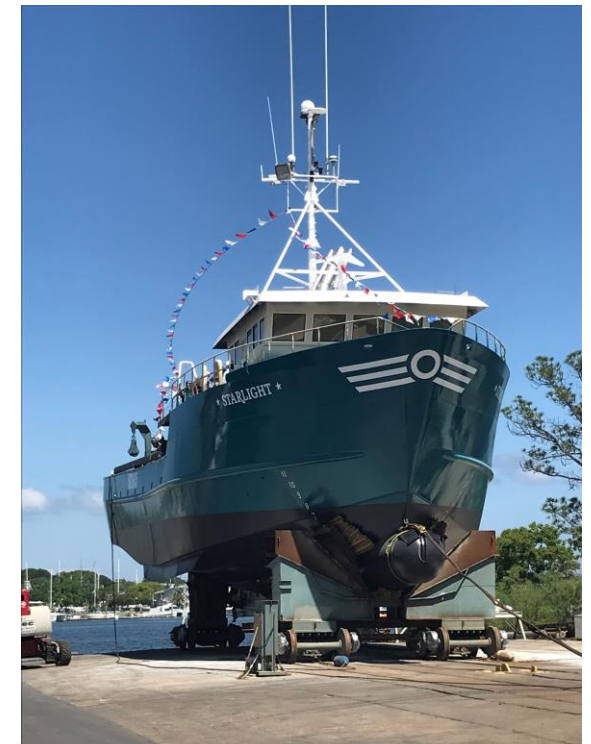

PATTI PRESS

MAY 23, 2019

The 97' F/V **STARLIGHT** arrived at PATTI's November 29th from Vinalhaven, Maine. The conversion work consisted of widening the vessel by 10ft, installing a new expanded bow with thruster and bulbous, along with a new stainless steel pilot house. This also includes new accommodations, various system upgrades, modifying and relocating deck equipment.

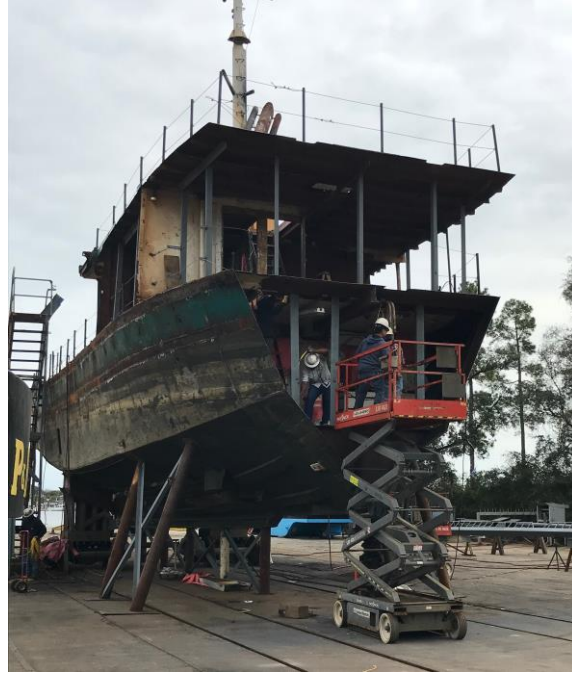

Hauled Out January 30, 2019

Launch date May 23, 2019
